MAKING THE IMPOSSIBLE POSSIBLE

▶ **With a large library of flavors and an amazing staff that develops new innovations daily, we deliver like no one else. We will work around the clock to make your impossible deadlines possible. That's a promise.**

Short lead times, samples within 48 hours, low minimum orders and free samples are just a few of the perks of working with First Choice Ingredients. You can also rely on our superior product quality and full access to our technical staff. Once you partner with First Choice, you will quickly understand why we are a preferred supplier for many of the major food corporations around the world.

If you're looking to create a customized flavor, we have the technology, facilities and expertise to make sure your project is a complete success.

Many of our products are available certified Kosher, Halal and organic. We are active members in the Association for Dressings & Sauces, Research Chefs Association, and Institute of Food Technologists.

BREAKTHROUGH IDEAS AND INNOVATION

▶ You don't find too many companies like First Choice Ingredients anymore. While our food scientists and chemists are known for breakthrough ideas and innovation, our roots as a company are truly old-school.

It all starts with hard work and a dash of common sense. From president to production, we're known industry-wide for our bust-our-tails attitude. We'll do whatever it takes to keep you happy. You need samples to see you through testing? Done. You have smaller quantity orders? Don't worry about it. Need a customized flavor? We'll take the next plane out and meet with you to get the ball rolling. The bottom line is: We're easy to work with. We're that kind of partner.

First Choice Ingredients is truly Where Flavor Begins. With our combination of innovation and good old-fashioned Midwestern work ethic, we are ready to tackle any project.

FIRST CHOICE INGREDIENTS - A TOTALLY DIFFERENT BREED

▶ First Choice Ingredients started as a dream many decades ago.

Being in the heart of Dairyland, our vision was to capitalize on all of the amazing natural resources in the area and build a company focused on creating superior concentrated dairy flavors. With years of hard work and innovation, our dream has been realized as we are now one of the most respected ingredient suppliers in the country, providing integral products for hundreds of customers worldwide.

the process

Beginning the production process with some of the freshest raw materials from throughout the region gives us a real advantage. With a unique combination of technology and craftsmanship, the end result is superior flavors available in a variety of strengths.

FLEXIBILITY IS KEY

▶ From reaction vessels to various dry blending equipment, we have the production facilities to get the job done. But it's more than that. It's a mindset.

As a growing company known for listening to our customers, we never hesitate to pull the trigger when it comes to expanding our product line to get the job done. If that means buying more 10,000 kg/tanks, increasing the facility size, or adding manpower – we will do whatever it takes. We are the recognized leader of concentrated dairy ingredients for many reasons. This is certainly one of them.
